INTRODUCTION

Welcome to this week's Lay The Odds newsletter! Every Friday we bring you the latest news from the betting community, including highlights and best available odds for upcoming sports events, delivered to your e-mail in-box in time for the weekend.

TOP SPORTING EVENTS THIS MONTH

Steamers

Do you want the latest information on which Bookies are shortening their odds? See the “Steamers” [here](#).

You will find selections that have shortened with a significant number of bookmakers. For ante-post races, only price changes in the last 24 hours are counted. For early prices and live shows, any significant shortener will remain on this page unless it lengthens significantly.

Horses are not shown as steamers if their prices are shortened immediately following the announcement of a non-runner. For the direction of the most recent price change for each selection with each bookmaker, see the full odds grid for that race.

Visit [PuntersOdds](#) for the latest betting news and [check the steamers](#) for this weekend’s sporting fixtures. Looking a little further ahead, here’s an example from the forthcoming **Gold Cup at the Cheltenham Festival**

Upcoming & Current Events

6 Nations – Saturday 26th February

England welcome France to Twickers in what will probably be the 6 Nations tournament decider. Both sides are undefeated this time and England's Chris Ashton will be forgiven his show boating swallow dives if he score tries in this one. This will be good, hard close quarter combat with hopefully some of that beautiful Gallic flair. Allez!

Carling Cup Final – Sunday 27th February

Arsenal finally have an opportunity for some silverware which has eluded them since their FA Cup success in 2005. Having swept past Ipswich with a convincing semi final second leg performance the Gunners look like a good thing. Birmingham City make up the final pair at the expense of West Ham who need to now concentrate on Premiership survival.

ONLINE BETTING RANTS

Do You Have What It Takes To Rant?

==> Could You Be A Founding Rant"a"Holic <==

Yes we are launching our brand new little brother site and it is called [Online Betting Rant](#) so here is the full scoop;

This is a haven and a world's first online betting blog community, it's a little bit between, Facebook, Twitter and the Racing Post, the only difference is this is open to YOU!

Initially [Online Betting Rant](#) or OBR for short is open for business for 14 lucky bloggers

This is your platform and we want this to be run by the everyday man in our great little community. If you have something to say, something related to sports betting or betting systems or maybe you can't back a winner to save your life at the moment then, this is the place for you.

==> Could You Be A Founding Rant"a"Holic <==

If you think you have what it takes we'd love to hear from you... [Apply to be a Ranter here](#)

[Luckytrev has had a rant!](#)

An open letter to the bookmakers, Corals, Ladbrokes, and Paddypower. Dear Sirs Why are you scared of Australian Punters? Are we so good that if you let us join your hallowed ranks of account holders your profits will plummet? If that is true it doesn't say much about your views on the nationalities that you do accept. I have tried to open accounts with all three of you but without success. I did ask you all why, and the answers I received had the hollow ring of fabrication. Like all forms of oppression the injustice hurts the oppressor as well as the oppressed, and by excluding Australian account holders not only are you guilty of racial prejudice and oppression by limiting my access to resources, but your narrow minded xenophobia damages you own bottom line thereby reducing your turnover and therefore your profits.

FEATURED REVIEW FOR THE WEEK

Last week I featured a review from the LayTheOdds.com website. It is called Pro Betfair Trading. No sooner had I written about it than our Admin Manager, Gordon, had to set up a new review to replace Arthur's review!

Here's Gordon's message:

Hello Everybody,

Admin Gordon here.

I would like to apologise for the latest hiatus in the review of Pro Betfair Trading, and I thank you for your patience.

The latest situation is that all my efforts to contact Arthur have failed, and whilst we have every sympathy for his current situation and what he has gone through recently, I have had to take the decision to abandon the current review as it has become pointless. We all sincerely wish Arthur all the very best, and hope that his problems are resolved shortly.

The good news is that we have another reviewer in place, Sgt Marc, who we are borrowing from our other site Bettingsystemtruths.com, Sgt Marc will be becoming an Inspector for a while, and we will be starting the review again from Day 1 very soon. So keep a look out for that.

I am sure you will agree this was my only choice, and I hope you enjoy the new review, and that it creates as much interest as the last one did during its short time.

Cheers,

Gordon

I'm looking forward to Marc's new review which will be starting soon.

Meanwhile, in case you missed Richard's e-mail offer of a FREE system, I'm reproducing it here:-

Hi dear reader, every now and again we are sent a free copy of a betting system, be it backing or laying and we are offered the chance to provide our readers with a free copy. Most we never send out as they are pure garbage but, sometimes like today we get rather excited about them and give you the chance to download them for free! This one being extra special in our opinion.

[\[Click Here To Download This System Totally Free\]](#)

or copy and paste this link: <http://laytheodds.com/Recommends/percentageprofits/>

Richard Ashdown the author should really be charging for this product but elects not to which makes you wonder where the catch is? Well there's no catch. I went to the page below entered my name and email address then received the system 100% GRATIS!

<http://laytheodds.com/Recommends/percentageprofits/>

So what is this system all about and which betfair punter will this interest?

Its called the 3F0 System, the weird-sounding system with a big track record of profits. I've put it through its paces on the Adrian Massey stats site and it certainly works and works week in week out every year. It has a 90%+ strike rate and is consistently Laying 3rd Favourites. Now don't get all sweaty under the collar... "Oh right! 3rd favourites I've seen that before!

The 3F0 system was derived from extensive form study of the top three market positions and the core variables that most notably affected their performance as a group overall. During the research, It was discovered that there were some fine opportunities for laying third choices in the betting under some specific conditions.

Reasons for this are logical. Firstly, there are at least two better fancied horses in the market. The first and second favourites win 53% of races between them, whereas third favourites as a group win on average around 13-14% of races.

In other words, third favourites LOSE more than 86% of the time! Now before you go off to oppose every third favourite you can find, don't forget that strike rate is only one part of the equation. You see, if all third choices in the market were sent off at odds of 10/1, we would be able to make money by blindly backing them. Confused? Don't be.

Quite simply, the point I'm making is that we need to find the right balance between the odds on offer and the likelihood of the horse winning (or losing, to put that another way).

When constructing 3F0, the author researched hundreds and hundreds of combinations of race types, odds ranges, race classes, and their relationship to recent performance and fitness.

His findings are summarized in the seven simple rules of 3F0, and are explained and illustrated in the detailed free ebook that you can download by filling out your details on the following link. Its free and very useful and will have you making profits this month.
